

**Proudly Representing Manufacturing Partners Who Act As
Solution Providers For Our Customers.**

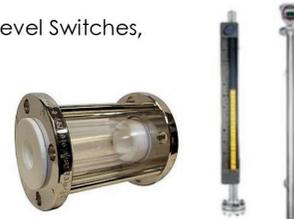

Rupture Pin Technology is a specialty products division of Taylor Valve Technology. Rupture Pin Technology is a leading manufacturer of high quality buckling pin valves. Every Rupture Pin product is designed to meet the highly demanding requirements of oil and gas producers, refiners, chemical plant operators, power generators and the processing industry in order to more effectively control their liquid, steam or gas operations

Magnetic Level Gauges, Magnetostrictive Level, Point Level Switches, and Laser Level Transmitter.

Jogler direct-reading liquid level/flow indicators are a simple, leak-proof way to observe liquid level in a vessel.

The Original Self-Aligning Technology

Taylor Valve's 1500/2500 Series Safety Relief Valves are built to ASME standards and inspected by the National Board. Many have carried the ASME UV Stamp for unfired vessels since 1958, reflecting decades of proven quality and compliance.

Unique materials structure provides reliable sealing performance in all environments.

Simriz® stands out for its broad chemical stability, similar to that of PTFE, combined with the rubbery-elastic qualities of an elastomer. They are used wherever extreme safety standards are in force and high maintenance as well as repair expenditures exceed the costs of the seals

- 5-year Warranty (Transmitter/Controllers)
- Simple 4 Step Calibration on Products
- Easy Configuration
- Built in Sensor life for E-chem Sensors

Their "Smart Sensor" interface has been adapted to many sensor technologies including electromechanical, resistive bridge, PID's, IR's, milliamps, and voltage inputs.

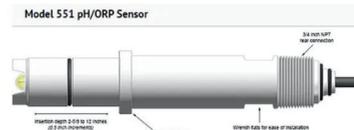

Proudly Representing Manufacturing Partners Who Act As Solution Providers For Our Customers.

pH, ORP, Conductivity, D.O., O2 Analyzers, Turbidity and Suspended Solids.

Barben Analytical is the market leading analytical supplier that designs, manufactures and sells analytical measurement products for the process industries.

- Pressure Regulators
- Dump Valves
- Level Instrumentation

High quality U.S. manufactured valves designed to meet many options encountered for the industrial market.

Alliance and Distributor Products

Manufacturer of Direct Drive Pressure Gauges & Pressure Regulators.

Temperature and Pressure Instrumentation.

Temperature Sensors, RTD's and Thermocouples
